

Press Release

Düsseldorf, 25th of August 2023

New urban camper Copa: the well-thought-out versatile model

- The new Copa offers even more of the #Wohnfühlen home from home feel comfort features that are typical for the brand
- Base vehicle: new Ford Tourneo Custom V710
- Initially offered with two layouts and drive versions based on the diesel engine with front and four-wheel drive

Düsseldorf. Bürstner GmbH & Co. KG, one of the leading manufacturers of motorhomes and caravans, is currently changing the chassis of its successful Copa model to the new Ford Tourneo Custom V710. Both of the previous layouts, C 500 and C 530, have been adapted for the new chassis, and important details have been developed further for the customers.

Compact home from home feel taken one step further

The Copa is truly **versatile** and offers numerous product highlights that create an even higher level of the #Wohnfühlen home from home comfort. The flexible layout of the Copa C 500 effortlessly converts from an everyday vehicle into a camper with that home from home feel, but can also be used to carry six people or bulky objects. From a family excursion to a house move, the Copa can handle anything.

In everyday mode, the vehicle comfortably seats four people. The **exclusive Bürstner bench that converts into a bed** effortlessly slides out of the way, thereby permitting the insertion of two additional single seats. The storage space solution below the bench has also been redesigned and now makes it possible to use the space even more efficiently, and to arrange the luggage even better. The full-width load space underneath the bench ensures easy transport of long objects such as skis or surfboards.

The **rear storage compartment can be loaded on two levels**; the new Copa can therefore be adapted to meet the customer's requirements at any time, and used for a wide range of different purposes.

In camping mode, the new bench that converts into a bed impresses with additional advantages that make life inside the vehicle even more comfortable. Thanks to a **height-adjustable headrest**, it instantly turns into a cosy couch for a relaxed evening with a good book or a comfortable bed for getting a good night's sleep.

The **Copa C 530** is the perfect choice for people who are looking for an urban camper with compact dimensions and a functional washroom/toilet solution. The layout impresses with a **functional rear area** with a cassette toilet and a fold away sink. The **Wellness pack** of extras offers the option of being able to shower inside the vehicle, which is equipped with an outside shower in the standard version. To facilitate this, the technicians have realised a variable shower concept with a removable shower tray, shower curtain and hot water boiler.

Two drive versions: take your pick

The new Copa will be launched with the 2.0 litre Ecoblue diesel engine. The standard version has a powerful 134bhp engine with a front drive and a manual transmission. An automatic version with 134bhp or 168bhp is optionally available for customers looking for an even more comfortable driving experience. The Copa is available with either an additional self-locking differential for manual transmission engines or an automatic four-wheel drive with 168bhp for those who prefer better traction.

The new Copa can now be ordered from many Bürstner dealers. Please refer to the official Bürstner website for more information and technical specifications.
